Theme: Earn While You Learn

Three Questions:
1 - Did you attend college while serving? What school did you attend? Onsite or online?
2 - How did program staff support you in your continued education?
3 - How would your experience have been different if you were working another job rather than serving with AmeriCorps?

Timeline: Month of June or July (in the thick of the recruitment season)
Meet Our New Members: Scout Rush

Scout is a 2020 graduate of Tuscumbia High School. She will be attending State Fair Community College in the fall in pursuit of her Associate of Arts degree. Ultimately, Scout plans to obtain a career as either a Physical Therapy Assistant or a Dental Assistant. She will use her life after AmeriCorps training with PAVE to help her make the decision on which path she will take. Scout is excited about helping students and building professional relationships in her year of service.

Welcome to the team, Scout! We can’t wait to see you shine in your service!

"AmeriCorps services is a great way to get your foot in the door... The time you spend in AmeriCorps lets your supervisor or director get to know your passion, work ethic and personal values, and if they are hiring a staff person after you complete your service, you could be a top candidate for that position. If not, you will have a great reference."
